## STRATEGIC OBJECTIVE #4

(Management of Productive, Life-Sustaining Natural Resources Strengthened)

NEW BRECDA OFFICE. Members of the Barangay Renewable Energy and Community Development Association (BRECDA) of Masulot, Sultan sa Barongis, Maguindanao build their office with their own resources soon after the Alliance for Mindanao Off-grid Renewable Energy (AMORE) program energized their village with solar electricity to trigger its development. AMORE is a partnership of the US Agency for International Development (USAID), Mirant Philippines Foundation, Department of Energy, the Autonomous Region in Muslim Mindanao, and the Winrock International that is empowering the poorest villages in Mindanao to plan and pursue their own development with electrification as the entry point.
